STATE BUDGET MESSAGE CALLS FOR HUGE SUM

Two-Year Budget Is Submitted To State Legislature

Calls For Largest Expenditure That State Has Ever Known

STILL HOLDS HOPE OF TAX REDUCTION

Many Changes In Affairs Of State Are Recommended In Message

By A. NORMAN GAGE
International News Service Staff Correspondent

HARRISBURG, Feb. 24.—To legislators who have waited four weeks for the news, Gov. George H. Earle today submitted a two-year budget without parallel in the history of the commonwealth.

While calling for the largest expenditure the state has known—$354,185,311 from the general fund and $510,630,311 from all funds, general and special—the program outlined by the chief executive provides for total tax reductions of $31,450,000.

Present taxes on amusements, distillers, documents and full-paid building and loan stock were slated for the discard coincident with a reduction from 10 to 7 per cent in the rate of the net corporate income tax and a drop from $2 to $1 in the annual license fee for motor vehicle operators.

As important features of the state's spending program for the next two years, the governor called for:

A unified system of unemployment relief and public assistance, closely modeled along the lines laid down by the Goodrich committee and involving the expenditure of $139,150,000.

Consolidate Police

A consolidation of the present state police and state highway patrol into a single "Pennsylvania Motor Police" directly under the supervision of the governor and paid from a $6,250,000 appropriation from the motor license fund.

A state construction and institutional repair program involving the expenditure of $57,650,000, all but $1,500,000 of the money being loaned or granted by the federal government.

In presenting the first half-billion dollar budget ever given to a Pennsylvania general assembly, Governor Earle told the lawmakers that the "dark days" of the state's financial troubles have been passed and a "brighter side" is ahead. As a evidence of this trend he cited estimated reductions of local real estate taxes, expected to result from centralized relief, and the direct slash in state-imposed taxes.

As itemized by the budget and the budget message, the cut in state taxes will be shared equally by individuals and corporations.

Senate Committee Hears Lawrence County Protest On Eroe "Ripper Bill"

(International News Service)

HARRISBURG, Feb. 24.—The senate municipal government committee today looked with disfavor upon the move of Sen. William Eroe, Lawrence Democrat, to reduce the number of judges in his bailwick from two to one.

An avalanche of protests was presented to the committee at a public hearing on the issue yesterday when a group of prominent Lawrence county attorneys and a former judge voiced objection to the bill.

At the conclusion of the hearing, Sen. Anthony J. Cavalcante, Fayette Democrat, member of the committee, summed up his attitude like this:

"Two Judges Not Too Many"

"You have 100,000 people in Lawrence county. Judging from the layout of the county, its complex social and economic structure, two judges to care for civil, criminal and orphans court cases are not too much at all."

His sentiment was echoed by Sen. Thomas Kilgallen, Allegheny Democrat, who pointed out that Lawrence

Reach Agreement In Quarry Workers Protest

After occupying the offices of the Works Progress Administration on North Mercer street from about 1:15 o'clock Tuesday afternoon until 6 o'clock Tuesday evening, a group of project workers from the West Washington street quarries, numbering about 200, left when a compromise was effected.

The compromise calls for a hearing to be held when Irwin Ferry and Walter V. Tyler will be investigated. During the time of the investigation no workers are to be fired, removed or transferred, all witnesses called are to be paid as though they were on the job, and neither Ferry nor Tyler will be on the project pending the findings of the investigation.

The occupation of the WPA offices took place at 1:15 Tuesday afternoon following the refusal of Director J. Vale Downie to remove Mr. Tyler, former mayor and councilman, from the quarry as the super-

Meyer Is Given Hearing Before Justice Near Chester Co. Jail

(BULLETIN)
(International News Service)

WEST CHESTER, Pa., Feb. 24.—Alexander Meyer, 20-year-old farm boy, today pleaded guilty to the cold-blooded attack-slaying of Helen Moyer and was remanded to the Chester County prison without bail.

The burly former reform school inmate was spirited out of the county prison shortly before noon and rushed in an automobile by authorities to the office of Justice of the Peace R. Jones Patrick, less than a half mile from the jail.

County Detective Francis Grubb, who arrested Meyer last Saturday, was the only person to testify at the hearing by District Attorney A. Raymond Reid. It was Reid who obtained the youth's confession that he deliberately ran down the 16-year-old Coatesville High School student, carried her off in his truck to an abandoned farm, assaulted her, and heaved her down a 50-feet-deep well.

Because of the high feeling running against Meyer, a cordon of police lined the doors leading to the justice of the peace's office. The hearing was carried out with such secrecy, however, that only a few pedestrians became aware of what was taking place.

Youngstown Man Is Being Hunted

(International News Service)

YOUNGSTOWN, O., Feb. 24.—Police today sought Phillip Poghan, 35, of Youngstown, whose $7,500 bond on a fugitive from justice charge was forfeited when he failed to appear at a preliminary hearing before Municipal Judge H. C. Hoffman.

Poghan is wanted in Beaver, Pa., in connection with the "torture robbery" of Theodore Bodonner, Ambridge, Pa. Police said Poghan and three others tortured Bodonner to force him to reveal where his money was hidden.

The three others are serving sentences in Pennsylvania for the robbery.

Erma Moffo, four-year-old daughter of Mr. and Mrs. Mike Moffo, 722 Neal street, who underwent an appendicitis operation in the New Castle hospital, is doing as well as could be expected.

NEW YORK, Feb. 24.—The $500,000 "breach of promise" suit of Peggy Garcia, blonde hat-check girl, against David Rubinoof, radio violinist, was thrown out of court today by Supreme Court Justice Salvatore Cotillo.

This action was taken when Miss Garcia's lawyer, Bernard Sandler, suddenly moved that the case be discontinued.

Peggy was on the stand at the time.

Abraham Halperin, counsel for Rubinoff, objected to a discontinuance, saying many unsubstantiated charges had been made which the defense had not had opportunity to answer.

"Motion granted," ruled Judge Cotillo, and Peggy stepped from the witness chair.

Formal Demand Made On Chrysler

BULLETIN
(International News Service)

DETROIT, Feb. 24.—A request for a national collective bargaining conference between the Chrysler corporation, one of the "big three" of motordom, and the United Automobile Workers Union was wired to the company today by the union.

A collective bargaining conference between General Motors and the union is already under way, and the demand on Chrysler will ultimately pave the way for a similar demand on the Ford Motor company, it was learned. Chysler, Ford and General Motors comprise the "big three" of the industry.

New York, Feb. 24.—Walter P. Chrysler, head of the Chrysler Corporation, today telegraphed a non-committal reply to leaders of the United Auto Workers who had requested a national collective-bargaining conference on behalf of Chrysler employes.

One Month Respite For Altoona Man In Spike Murder

(International News Service)

HARRISBURG, Feb. 24.—Roy Lockard, 24-year-old Altoona 'spike slayer", today was granted a new lease on life when the state pardon board granted him a continuation of one month and recommended that Gov. George H. Earle grant him a respite.

As a "matter of principle not concerned with the facts of the case" the board granted the continuance pending disposition of retrial motions for Mrs. Margaret Karmendi, convicted jointly with Lockard for the slaying of Mrs. Karmendi's three-year-old son, "Sonny".

Thirty-Four Senators Now Announced Definitely Against President's Court Plan

HUGE PROTESTS REACH CONGRESS

Unlimited Debate Is Now Certain As Cloture Cannot Be Invoked

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, Feb. 24—Unlimited debate on President Roosevelt's proposal to enlarge the supreme court was assured in the senate today after the 34th senator publicly declared his opposition to the plan—Millard E. Tydings (D) of Maryland.

With 34 senators opposed, administration ranks will be unable to force a final vote at any time through adoption of cloture. This rule requires a two-thirds majority for adoption.

Senator Ashurst (D) of Arizona, author of the president's bill and chairman of the senate judiciary committee, will oppose any effort to invoke cloture to shut off debate on the measure.

In becoming the 34th senator to oppose the president's plan—as compared to 28 who have publicly endorsed it—Tydings said:

"I do not feel that the proposed enlargement of the supreme court is proper. In reality, such enlargement really settles nothing permanently.

Orderly Way Evident

"If wider legislative powers are desired for congress, then the orderly way to secure such wider powers for the congress is through the method of constitutional amendment, where the people may grant or withhold the powers requested."

The final outcome continued in doubt, with only 62 out of 96 senators definitely committed on the bill. The remaining 34 non-committal senators could determine the issue either way.

The same indefinite outcome hov-

Would Abolish Poor Board Plan

Governor Asks Legislature To Scrap Old Poor Board System

MANY RELIEF CHANGES URGED

By FREDERICK N. POLANGIN
International News Service Staff Correspondent

HARRISBURG, Feb. 24—Gov. George H. Earle today asked the legislature to scrap the two-century old poor board system and establish a consolidated administration of relief and public assistance financed principally by the state.

Virtually adopting the Goodrich report en toto, the chief executive in a precedent-shattering budget message recommended the SERB be abolished and replaced by a separate department of public assistance of cabinet ranking to carry out the entire program.

Relief At $139,500,000 For 2 Years

He set the relief and public assistance estimate at $139,500,000 for the next two years, of which $1,500,000 was to be for administration purposes. Of this total $99,000,000 was to be set aside for relief and $39,000,000 for public assistance. The total four-year Earle administration cost of the program thus would be $292,300,000, or 180 per cent more than the cost of $106,000,000 during the Pinchot administration.

Yet, despite this increase, Governor Earle promised Pennsylvanians a $31,500,000 slash in taxes.

This estimate, he said, would not only increase standards but would also "add 19,000 to our present 67,906 on old age assistance, 6,300 to the 10,133 on mothers' assistance and 500 to the 9,765 on blind pension rolls."

Other Recommendations

The chief executive also recommended the following:

The Mahaneys, are believed to be the only quads born on Christmas day. Mrs. Mahaney has had 14 children, nine of them now living at home.

May Merge State Patrol And Police

Step Is Urged On Legislature By Governor In Budget Message

(International News Service)

HARRISBURG, Feb. 24.—Consolidation of the state police and highway patrol, creating a far-flung motorized law enforcement corps for Pennsylvania was recommended to the general assembly today by Gov. George H. Earle in his budget message.

To be called the Pennsylvania Motor Police, the proposed division of 1,000 "highly-trained" men would operate under a police commissioner and make its reports directly to the governor.

The revised policing division would be supported out of the motor license fund. At present only the highway patrol is supported under the fund derived from gasoline taxes and vehicle license fees, the state police being maintained through the general fund. The patrol, under the present setup is responsible to the revenue department and the state police to the chief executive.

For the purpose o. "strengthening the new corps service to the police departments of the various governmental sub-divisions," the governor further urged the installation of 500 police cars, equipped with short wave radios.

Court Rules Out First Degree In Somerset Trial

Justice Maxey Makes Momemtous Ruling In Monaghan Case Today

ATTORNEYS MAKE THEIR FINAL PLEAS

Regard Ruling Of Court As Important Victory For Defense In Trial

By DICK SHANER
International News Service Staff Correspondent

COURTHOUSE, SOMERSET, Pa., Feb. 24.—Handsome young Stacey Gunderman was snatched from a possible death in the electric chair today.

Just as attorneys launched into their final pleas to the jury, Supreme Court Justice George W. Maxey instructed the jury of ten men and two women that no first degree murder verdict was possible on the face of the evidence presented by Attorney General Charles J. Margiotti, special prosecutor.

The death of Frank C. Monaghan, 64, elderly hotel keeper of Uniontown, in the Bertillon room of the Fayette county courthouse, was nothing more, Justice Maxey implied, than second degree murder, or less.

The task of the jury will be to decide whether Gunderman was guilty of bringing about that death.

Quiet Ruling.

The action of the jurist was so matter of fact it momentarily escaped the attention of the crowded little courtroom which had heard Margiotti's charge that Monaghan was brutally tortured and beaten to death "in a third degree".

Before permitting the attorneys to launch into their final pleas, Judge Maxey turned to the jury as court opened and said:

"After conscientiously considering the evidence I find that it does not warrant a first degree verdict.'

There was a momentary pause

MINERS IN "SUICIDE STRIKE"

Four Hundred Stay In Mine

Hungarian Miners Demand Increases Of 80 Per Cent In Wages

TROOPS KEEP MORE FROM ENTERING MINE

(BULLETIN)
(International News Service)

BUDAPEST, Hungary, Feb. 24.—Four hundred desperate miners today barricaded themselves for a "suicide strike" deep in the stygian shafts of the famous Five Churches coal mine near here.

While weeping women and children stood around the pit-heads, the strike leaders vowed all would remain below until death by starvation, drowning or asphyxiation overtook them—unless they were granted an 80 per cent wage increase.

Their first act was to smash the water pumps. Immediately the lower drifts of the mine began filling with water and the grim 400 were threatened with drowning within two or three days.

Several thousand troops, protected by steel helmets and bearing rifles with fixed bayonets, guarded the mine-heads to prevent 4000 more miners, who were locked out, from joining their comrades.

Authorities Skeptical.

Skeptical authorities in the mine district were inclined to doubt the strikers would make good their death threats. Determined to starve the miners out, they ordered troops to besiege the entrances and keep food from reaching the men.

The Five Churches mine was the scene two years ago of an underground hunger strike that attracted world attention.

After they had watched some of their fellow-workers actually die before their eyes, the strikers emerged, gaunt with hunger, only when the company promised a wage rise.

The strikers now claim their wages average only $3.60 a week, and they now demand $6.48.

The mine is owned by the Danube Shipping company, which in turn is owned by the Hungarian government.

COURT RULES OUT FIRST DEGREE IN SOMERSET TRIAL

(Continued From Page One)

until the full import of the ruling became apparent.

It was just a simple announcement, as had been others the jurist made during the trial.

For the first time since the trial began, the impassive features of the strapping, broad-shouldered trooper broke into a trace of a smile.

Margiotti, surprised at the crushing blow to the commonwealth's case, remained tight-lipped and silent.

The ruling was a tremendous victory for the defense.

The maximum penalty for second degree murder is 10 to 20 years.

Three other verdicts are possible: voluntary manslaughter, six to 12 years; involuntary manslaughter, three to six years, and acquittal.

John J. Duggan, Jr., the bitterly fighting chief defense attorney, commended the action of Justice Maxey and praised him for his "fairness" in beginning his address to the jury.

"As the fact-finding body, the testimony is yours," he began.

"There isn't any question that Frank Monaghan met his death on the morning of September 12. There isn't any doubt his death, as the doctors said, was caused by external violence. There isn't any doubt those external injuries were inflicted by this defendant, Stacey Gunderman."

Gunderman, Duggan said, repelled Monaghan in self defense when attacked.

Duggan lashed with scorn the "high-powered experts" summoned by the commonwealth.

The trooper's attorney made an impassioned plea to a jury of 10 men and two women that Gunderman be acquitted on a charge of murder resulting from Monaghan's death in the Bertillon room of the Fayette county courthouse.

"This boy did what you and I or any one else would have done," Chief Defense Counsel John J. Duggan, Jr., asserted in defending Gunderman's plea that he was forced to subdue Monaghan when the latter attacked him from behind while being questioned about the slashing of County Detective John C. Wall.

Duggan painted a picture of Monaghan as a vicious and despicable character and asserted that Gunderman was fully justified in using any means at his command to resist him.

SENATE COMMITTEE HEARS LAWRENCE COUNTY PROTEST

(Continued From Page One)

county courts at present were hearing some 100 trial cases a year. "This is a tremendous amount of trial cases," he said, "along with other routine court work such as handing down opinions and hearing pleas of all sorts."

Eroe, although he was unable to name any particular group backing his measure, said he had introduced the bill to "save the taxpayers money" and that the court work did not indicate any necessity for an additional judge.

Bill Surprise

"When we heard of the bill it was like thunder out of the blue sky," said J. Clyde Gilfillan, president of the Lawrence County Bar Association. "The bar association voted to protest the bill. We worked 15 years to get an additional judge because of the amount of court work. Since then court business has increased 20 per cent and one judge couldn't do it. I have no knowledge of any group supporting the bill."

"Should we carry the point of economy so far as to injure the administration of justice?"

Former Judge R. L. Hildebrand, who was on the bench before and after the number of justices was increased, told the committee:

"I was on the bench two years when they added a judge. When I first went on the bench the work was piled up and when I say 'piled up' I mean piled up. No one man could have cut it up in 1926 and '27. I always needed a visiting judge. I think it would be a great mistake to take away one of our judges.

Cavalcante interjected:

"From what you say it seems to me it would be cruel, barbarous to ask one judge to do all the work; to make him stay within call at all times for emergency duty."

Former State Senator George T. Weingartner, who sponsored the bill creating the additional judge some nine years ago, said the Eroe measure would "revert us back to the previous chaotic condition."

Eroe Contention

Eroe contended that one judge plus a "visiting" judge from another county from time to time was all that was necessary but Cavalcante held that such a practice, save in emergencies, was a bad thing.

Marshal G. Matheny, a New Castle attorney, presented to the committee several petitions of protests from Lawrence county civic and political groups.

When Eroe added that he, were he to go to the trouble, could get a similar number of petitions, Cavalcante interrupted him with:

"There is no doubt that you could get a lot of names, but I'll gamble none of them had any experience or knowledge of court procedure and its difficulties."

SENATOR TYDINGS PUBLICLY OPPOSES COURT PROPOSAL

(Continued From Page One)

ered over the senate judiciary committee, which will start public hearings on the plan March 9. A poll failed to disclose the committee's probable action or even whether it would split other proposed judicial reforms in the bill from the proposal to enlarge the court. The president has urged consideration of all reforms in one bill.

The poll showed eight senators on the committee favoring separate consideration of the supreme court increase, six opposed to this separation and four non-committal. A vote probably will not be reached in the committee until late March or early April.

Huge Protests Made

Congressional mail on the issue remained heavily adverse, with some senators reporting protests were anywhere from 30-to-1 up to 100-to-1 in the majority. Many petitions were received, some from labor organizations favoring the plan but many more from private citizens opposing it, it was reported.

Seventy-nine members of the faculty of the University of Michigan filed one protesting petition with congress. The professors called the presidential plan an attempt to "destroy the historic independence of the supreme court" and "seeks to accomplish, under the guise of apparent legislative authority, what would amount to an amending of the constitution."

Things even up. City people have their sophisticated magazines and yokels have the underwear section of the mail order catalog.

TWO-YEAR BUDGET IS SUBMITTED TO STATE LEGISLATURE

(Continued From Page One)

payers will benefit by the proposed elimination of the four per cent tax on amusement admissions ($6,700,000 in two years), the five mill documentary stamp tax ($800,000), the four mill tax on full-paid building and loan stock ($650,000) and the 50 per cent slash in motor vehicle operators' license fees ($5,500,000.)

Discussing the tax revision, the governor said:

"With the cooperation of this legislature at this session, we have completely modernized our tax collecting system by the business-like inauguration of a self-assessment system, under which the taxpayers pays his taxes when he makes his return, in contrast to the old method of having three months to two years elapse between the date of the return and the payment of the tax. This feature means a pay-as-you-go policy in state governmental operation."

The further importance of this change in the state's tax system was indicated by administration fiscal experts who estimated that the self-assessing feature will bring $28,500,000 of revenue into the treasury before the presnt biennium ends on May 31. Through the receipt of this money—not available in any previous biennium—a threatened deficit of $25,000,000 will be converted into a surplus of $3,471,978.

Budget Recommendations

Summarized, the governor's budget recommendations for the two-year period starting next June 1, calls for the following appropriations from the various state funds:

General fund, $354,185,205; motor license fund, $151,330,572; fish fund, $932,000; game fund, $2,349,400; banking department fund, $1,506,270; farm show fund, $106,270; forests and waters fund, $220,000; total, all funds, $510,630,311.

The principal recommended expenditures from the general fund—from which all normal operating expenses and state subsidies to schools, institutions, relief, etc., are paid—were:

Supplemental appropriations—For 1935-37 biennium, $23,606,420; departmental operations, $35,954,579; institutions-subsidies, $129,149,014; public assistance, $39,000,000; unemployment relief, $99,000,000; debt service, $15,575,192; state authority plan, $5,000,000; construction and flood relief, $6,900,000; total supplemental appropriations: $354,185,205.

To raise the money necessary to cover these general fund expenditures, the governor proposed these revised sources of revenue:

Normal taxes, $161,355,206; emergency taxes, $161,330,000; liquor store profits, $31,500,000; total revenues, $354,185,206.

Bills to reenact the revised program of "emergency" taxes were introduced in the house of representatives today. With one exception, they continue the 1935-36 levies on utility gross receipts, corporate loans, bank shares, cigarettes, gasoline one extra cent) per gallon, personal property, and liquor. The exception is the 1935 tax law extending the capital stock levy to manufacturers, a $15,000,000 biennial revenue producer which is to be made a permanent part of the state tax program.

AS THE FLOODS RECEDE

GRADUALLY, as the peak of the flood danger passed, the newspapers the last few days have been giving it less and less space.

Thus, while other important and intriguing events held the attention of the nation, the flood story assumed its proper place as the waters themselves passed the top marks and ended the immediate tragedy.

Ahead is the problem of clean-up work, resettlement of the homeless, rebuilding of ruined property, putting new life into business and planning for future control.

Meeting with President Roosevelt, Harry L. Hopkins, Works Progress Administrator, who had toured the flooded areas, recommended the following four-fold rehabilitation program:

1—Return of refugees to their homes as quick as possible to avoid health perils in concentration camps.

2—Establishment of a Federal credit agency to extend cash loans to "middle ground" persons who have no bank credit but who are destitute.

3—Extension of sanitation work to protect residents in cities inundated by the flood.

4—A clean-up program for cities to be completed in the fastest possible time.

In this connection Mr. Hopkins stated that 150,000 WPA workers were busy in the flood zones and that 100,000 more probably would be needed to speed the program as the ground and buildings dried out.

The work is going on apace. What can be done is being done. We should now turn our attention to adopting measures that will assure us of at least partial flood control in the future.

HOUSECLEANING DAYS

The average man cannot quite comprehend the fierce assault with which his wife attacks the labors of house-cleaning. Does she enjoy this encounter with the dust clouds Some may even claim that all this activity simply stirs up the germs, where previously they had been sleeping quietly.

But anyway this solemn and semi-annual ceremony is not the earthquake it was in former days, before modern devices had been invented, when Father, driven from the desolate house, was supposed to eat dinner disconsolately in the woodshed.

When you see those clouds of dust being beaten out of the rugs, be thankful you are not breathing in all that dirt. If our clothes have to be washed every few days, the housewife is not too fussy in insisting that the home be scrubbed and combed twice a year.

FOOTBALL KICKED AGAIN

In a recent address, President Clothier, of Rutgers University, advanced some noteworthy criticisms anent inter-collegiate football. In particular, he deplored:

1. Increased betting on gridiron contests.
2. Too much intensified football interference with classwork.
3. The raising of football to the status of a huge public spectacle.

Such points of criticism have been made before, in more or less varied form. But it seems that little of any constructive effort has been exerted in the direction of remedial changes.

Creation of "conferences" including institutions of comparable standards is something that may help solve the problem, for under such circumstances definite forms of athletic policy can be established.

However, so long as football remains in the category of big business, with the entire collegiate athletic program looking toward it for financial support, the issues to which President Clothier alludes probably will continue to bother the educational administrators.

When it pays good money, dying for dear old Siwash becomes a tempting matter of Spartan overemphasis and commercial exploitation.

TALKING BACK TO THE BROADCASTER

An emphatic switch of the dial has up to now been the average person's one resort in registering disapproval of a radio program or disagreement with the views of a radio orator.

Sometimes, it is true, this thumb-down gesture is accomplished by loud vocal outbursts on part of the listener. But something has been lacking—that being, of course, an automatic way of showing the particular radio spell-binder, hill-billy, child-wonder or Itzy-Bitzy-Bunny bedtime story-teller that his wares are not, to put it mildly, being appreciated.

To fill this need, an inventor comes forward helpfully with a gadget known as a televoter. Intended to provide for interested sponsors and others instantaneous check of the listening audience, it also gives the listeners a chance to become more than just so many hidden ears in the ether. Sets are equipped with a device, under this method, permitting stations to know how many are tuned in to any program. At the same time, dialists may push a button to record by lights in the studio their "yes" or "no" to any questions put them.

Pressing a button is not wholly soul-satisfying to someone tortured by a performer, but it at least furnishes more fruitful way of relieving radio emotions than smashing the furniture.

Hollywood reports a craze for personal bookplates. So there's an actor out that way who has a book?

On the question of whether happy days are here again, the United States Supreme Court votes in the negative.

The highlights of a Chicago Bar Association dinner was a hilarious travesty on the operations of a parole board. In some states the travesty is given by the parole board itself.

Opinion is divided on the solution of the flood problem. The possible remedies include higher levees, reservoirs, reforestation and a trailer in which the family can be taken to the hills.

The Parent Problem

PUPILS NUMBERED

The penitentiary is not the only place where human beings are known by their numbers. To the penitentiary may be added colleges, high schools and even some elementary school.

But it does make a difference where the teacher knows the learner by name. You and I even feel different toward the tree, flower or insect we can call by name and, if it had emotions, addressing it by name would elicit from it favorable feelings.

Some teachers have to meet so many students. Even in the upper elementary grade one teacher may have in a single day a hundred or several hundred of them. It is not easy to learn all their names and to know them as individual personalities. Even some grade teachers of only 30 or 40, or some home-room teachers of junior or senior high school students, do not know their children by name after a few months. I wish this human side of education might be given first place by all teachers.

A certain father, who is a scientist of considerable standing, told me the following which, I must confess, greatly disturbs me. I wonder whether it could occur where my son or daughter goes to college. He said, "My daughter is a senior in ——university. She makes more than average grades and has failed in no subjects. She made the National Honor Society in high school, and is president of her college sorority. I have met several of her teachers at conventions, who had her for one or more semesters in classes of about 30 students. Not one of these teachers seemed to know her, or even to recognize her name when I asked them about her.

Advisor Doesn't Know Girl

"My daughter says that the special advisor who has about 100 seniors to look after does not know her, though she has been their advisor since they were freshmen. And this institution is famous through convention speeches and magazine articles as 'the tops' in personal guidance of young women, which fact is used as a big drawing card for students.

"My daughter says that on entering that school, and at periods later, every student must spend hours and hours filling out blanks designed to analyze her personality, but that when she was called in for an interview she was allowed to say hardly a word; that the advisor did all the talking.

DO YOU PLAY YOUR HUNCHES?

I don't think I'm superstitious, but I do believe in some things I can't explain.

I don't spit on the palm of my left hand whenever I see a white horse. Never looked for a four-leaf clover in my life. Never shivered when I saw a black cat or was troubled when I broke a mirror or spilled the salt at table. But I do believe in playing hunches.

I'm not referring to hunches about selling stock before it drops 10 points or about not starting an ocean voyage on a Friday. I know that some people swear by such things and can give you examples of the wonderful hunches they've had, but I can't seem to believe any of them.

The hunches I'm talking about are the ones you have in human relationships.

You have a hunch you ought to have a talk with a friend about some apparent misunderstanding.

You have a hunch another friend needs money but is ashamed to ask you for a loan.

You have a hunch you ought to bring home a box of candy.

You have a hunch one of your children ought to be taken to the doctor.

You have a hunch you've been talking too much.

And all these hunches should receive serious consideration.

We have certain powers that are only vaguely understood. We sense undercurrents in human affairs without being able to put the finger of the mind directly on the spot. A husband says, "What's wrong?" His wife says, "Nothing." But the husband isn't fooled. He Knows something Is, though she denies it—and almost any wife can see through any husband's efforts to be cheerful when he's worried.

Something within us gives warnings and those warnings are rarely wrong—because they come from the hidden mind that is wiser than most of us realize. Wiser and kinder and braver.

Good Taste

By FRANCINE MARKEL

By FRANCINE MARKEL

DEAR MISS MARKEL—Although you have given much advice on giving and attending teas, you have not given any of the fundamental principles of pouring at such functions. Please do so soon. L. L.

Answer—Ask the guest how she prefers her tea. Pour some tea into her cup, adding hot water if she prefers it weak. Next ask her preference for cream or lemon, putting in sugar to her liking. Place a spoon on the saucer with its handle parallel to that of the cup. This cup, saucer and spoon combination should be placed upon the tea plate, with the napkin on the side, not under the cup and saucer.

The hostess should not both pour and wait upon the guests. If there is no maid present, the guests should approach the table to receive their tea and help themselves to sandwiches and cake.

If desiring a second cup, a guest should not hesitate to approach the hostess with such a request. She will consider it a compliment.

As guests decide to leave, they go over to the hostess, still at the tea table, and shake hands with her. If she is busy, she need not rise.

If there is no servant to open the front door, guests, departing early, should let themselves out.

WHERE SHOULD one look for the greatest upward climb of business From observations gathered by this column—the Pacific coast. With the settlement of the maritime deadlock, an immense amount of business has been unleashed. Besides, the Pacific coast has not yet shared to as full a degree yet in the recovery movement as the east and the midwest.

Such movements—depressions as well as recoveries—seem to sweep from east to west.

Behind the scenes the administration is joining farm groups to labor groups on the supreme court issue. Some close observers believe that within less than two weeks President Roosevelt will have a fairly well solidied farmer-labor group behind him on the issue. Then he probably will make a radio address, which is expected to be followed by a "popular uprising" for his proposal.

As already predicted here, dissenting progressives are expected to be won over by agreement to try also for a constitutional amendment to curb the court on nullifying laws.

Passage of the president's supreme court measure would be followed by renewed legislation on wages and hours, farm aid, control of natural resources, housing and social problems.

WON'T BECOME LAW

The Dickstein bill to keep out foreign talent will not become a law. It would be vetoed if passed. The New York Times says "this bill is not merely vicious; it is incredibly stupid." The world's greatest talent would be barred.

That is bad enough, but the state department thinks of something even worse, in a business way—collapse of reciprocal trade relations. American entertainers, American movies, American plays, American music, etc., might be barred in retaliation. The loss would run into the tens of millions.

Furthermore, to bar the great talent of the world, would deprive American actors and American firms of vast earnings—for it is the talent which creates the jobs and the earnings.

Nor will the American public consent to forego the great artists of the world. It demands more, not fewer of them.

ABOUT "NUTHIN'"

Down in Texas one Kathllen Perry, nicknamed "Pheta" was being tried for the offense of assault with intent to murder one Ollie Bess Wiley, nicknamed "Coon," both females being negresses, and it appeared from the testimony that the difficulty arose over jealousies in regard to the affections of one Charles Royster, who was commonly known among his associates as "Nuthin." The prosecuting witness, "Coon," testified in part as follows:

"I was sittin' on de truck doin' nuthin' and Pheta come up and say 'Hello, Coon'; and I sez, 'Hello, Pheta'; and den she say, 'hears for a fak dat you has been goin' wid Nuthin.' An I say, 'Huh.' At this stage of the proceeding, the accused changed her plea of not guilty to one of guilty and asked for a suspended sentence, and the jury gave her a suspended sentence. Whereupon the learned trial judge proceeded in the usual way, with

A CHILD'S BROKEN ARM

Mary's mother felt like crying.
Mary's aunt was much concerned.
To the doctor's I went flying
When the accident I learned;
Grieved to hear the verdict spoken:
"Yes, it's quite a serious thing!
Little Mary's wrist is broken.
Now she'll have to wear a sling."

Hurts like this are much regretted.
Oldsters think them rather bad.
Everyone who knows her fretted,
Spoke in accents low and sad.
Little Mary, laughing loudly,
Loves the gifts we come to bring.
Walks about and very proudly
Wears that plaster cast and sling.

Round about her playmates hover
While upon them Mary beams.
Strange how children soon discover
Just how sweet attention seems.
Many a youngster, wide-eyed, staring,
Envying Mary's added charm
To her parents goes declaring:
"Wish I had a broken arm!"

Host Of Senior High Girl Reserves Coming For Week-End Sessions

Two Hundred Expected At Mid-Winter Conference In Local Y. W. C. A.

Western Pennsylvania, Eastern Ohio And West Virginia To Be Represented

By train and bus from cities in western Pennsylvania, eastern Ohio and West Virginia, a throng of senior high school Girl Reserves, delegates to the annual mid-winter conference this week-end at the local Y. W. C. A., will begin arriving at about 4 o'clock Friday afternoon.

It may safely be assumed that the number of girls from out-of-town will approximate 160. There are that many accredited delegates in the various high school Girl Reserve clubs in the tri-state area; in case some are not able to attend it is likely that alternates will come in their places.

Two Hundred Delegates.

Added to New Castle's quota of 40 delegates there will be 200 in all at the week-end sessions.

The job of arranging for feeding and housing of out-of-town guests is no small one but is being handled efficiently by the Girl Reserve committee of which Miss Virginia Duff is chairman and the special conference committees with the help of Miss Dorothy Stewart, girls' club secretary of the Y. W. C. A.

Senior high Girl Reserves from New Castle, Union and Shenango township schools have hospitably offered their homes for the accommodation of out-of-towners and the housing committee has been pleased by their fine cooperation. The guests will stay at the private residences Friday and Saturday nights and will have their breakfasts there. Other meals will be served in the First Christian church on the public square.

Reservations have been made by delegates as far east as Altoona and as far west as Toronto, O. One of the largest delegations will be that from Pittsburgh. The first are due in here at 4 p. m. Friday.

Register At Y. W. C. A.

Immediately upon arrival they will go to the Y. W. C. A. and register. There they will be assigned to their hostesses who will "take them under their wings" for the rest of the week-end. Chocolate and cakes are to be served in the Green room of the "Y" on the first evening and the building will be open for tour.

Saturday morning the conference program will be placed formally under way in the auditorium with general assembly. The complete schedule has been arranged by the Pittsburgh clubs and has not yet been received in printed form at the local Y. W. C. A. However, it is believed that a Pittsburgh speaker will be introduced Saturday morning and will have as subject "The Art of Choice".

The body will then split into discussion groups when vocational choices will be considered, personal and religious. Luncheon at the First Christian church, then more discussion groups in the "Y", and at 3:15 p. m. sight-seeing trips will be offered to various interesting points of the district, to the Cathedral where J. Purim Megillah At 7 Tonight In Tifereth Israel

Purim Opens At Sundown; Megillah Will Be Chanted In Synagogue

Purim, the Feast of Lots, opens at sundown this Wednesday, February 24. Commemorating the loyalty of a Jewish woman to her people, Purim is symbolic of the triumph of the Jewish spirit over the forces of wickedness and persecution.

A major feature of the festival is the reading of the Book of Esther in the synagogue during this one-day holiday. The Megillah will be chanted tonight at 7 o'clock in the Tifereth Israel synagogue.

There is also to be a Purim program next Sunday evening, February 28, in Tifereth Israel, and a rehearsal of the Purim characters who are to present it will take place Thursday night at 8 o'clock.

At the Sunday evening program a Purim "Sudah" will be given to the Hebrew school children.

The report cards of the school children are being prepared to be sent out to all parents immediately after Purim.

As a father we are deeply concerned over the charge that in Oklahoma City a school teacher sealed the lips of talkative children with clothespins. What we want to know is, did it work?—Baltimore Evening Sun

Hadassah Celebrates Silver Jubilee And Purim Festival

Festive holiday of Purim, Hadassah's birthday nationally, which this year marks the 25th anniversary since its inception, was fittingly celebrated Tuesday evening, at the Cosmo club, by a capacity turnout of members and friends of New Castle chapter Hadassah.

The idea of sharing one's blessings on this occasion, and giving to others, was carried out in the form of an ingathering of linens for Hadassah medical organizations in Palestine, and the fifty allied institutions which it assists.

Mrs. Percy Alpern, Mrs. A. Katz and Mrs. J. Cobb, of the Palestinian supply committee, were in charge of this shower, reporting a splendid collection. Hadassah records in Palestine show no item for linens, all of which is supplied by the Jewish womanhood of America.

A short business session preceded a program arranged for the evening. Ina Rosenberg, chairman of Junior Hadassah, announced future plans of her girls' group; educational committee reported on the public Jewish Forum which takes place this Thursday evening, February 25, in the Cosmo club, with rabbis of the community leading in the discussion on "The Value of Jewish Education." Louis Kohn will act as chairman. Hadassah co-operates with this Forum, every member expecting to be present.

The Palestine sewing survey committee with Mrs. H. Waldman as chairman, has completed work for the Palestine orphan boys, and received grateful acknowledgment for this piece of work, splendidly done.

As the time for Hadassah's annual Donor Dance approaches, the members and fund raising committee become more enthusiastic. They are working busily and looking forward to the ultimate success of this dance on March 16, at the Field club, which they hope will complete their three major quotas. A detailed report as to its progress was rendered by its chairman, Mrs. J. Kulkin, general chairman.

The program proper was opened by the president, Mrs. L. F. Kohn, who spoke on Hadassah's silver jubilee and the circulation of the jubilee scroll on which every officer and member will inscribe her name. When completed, the combined scrolls of every chapter will be placed for permanent keeping in Hadassah University hospital now in progress of construction in Jerusalem.

Mrs. Kohn read a clipping of the very first meeting held by the local chapter, and by contrast showed that while the objectives of Hadassah have not varied in a quarter century, the scope of its activities have been greatly enlarged and will be further expanded during this jubilee year.

The Hadassah news commentator, Mrs. Sam Edelstein, vice chairman educational committee, gave headlines of the latest news in clever fashion. She also introduced the guest speaker, Rabbi Carl Manello, of Temple Emmanuel of Youngstown, as "Our Good Neighbor".

Rabbi Manello who is exceedingly popular, was received with acclaim. He prefaced his review of the masterpiece "Brothers Ashkenazi", written by Singer, and translated into English by the famous author, Maurice Samuel, by praising Hadassah for her many splendid accomplishments throughout the 25 years of work for Palestinian institutions and educational work in America.

The book shows the struggle between capitol and labor, and is a story of the rise of the Polish city of Lodz, giving the life of a textile weaver and the progress of the hand loom to machinery, up to the present time. Rabbi Manello held his audience spellbound, dramatizing many portions.

Singing of Hatikvah, led by Rabbi Pinchos Katz, concluded this fine program. A gay time was held by the capacity group afterwards and hostesses who served in traditional Purim fashion were: Mrs. A. Fisher, chairman, Mrs. L. Sandler, Mrs. M. Newmark, Mrs. Jack Gerson, Mrs. Jack Gold, Mrs. M. Hershman, Mrs. L. Miller, Mrs. B. Moresky, Mrs. J. Raffel.

Over 800 Pressmen At Magazine Plant On Sit-Down Strike

(International News Service)

SPRINGFIELD, O., Feb. 24.—"We will sit down until Christmas if necessary to get this thing settled," Paul Hermann, union spokesman, declared today as 800 pressmen continued their sit-down strike at the Crowell Publishing company, one of the nation's largest magazine publishers.

While only the pressmen are striking, both sides admitted unless a settlement is reached quickly the entire plant, employing 4,000 persons, will be affected.

Every press in the huge plant, which publishes the American, Woman's Home Companion, Collier's and the Country Home, was idle as the pressmen held out for union recognition, increased wages and a shorter week.

Bar Association Committee Back From Harrisburg

Present Protest Against Eroe's Ripper Bill On County Judgeship

Members of the Lawrence County Bar association who attended the hearing before the Senate judiciary general committee in Harrisburg on Tuesday on the Eroe judicial ripper, returned home today.

In the group were Ex-Judge R. Lawrence Hildebrand, President of the Association J. Clyde Gilfillan, Ex-State Senator George T. Weingartner, Attorneys Wylie McCaslin and Marshall Matheny.

All of the attorneys agreed that they had been given a fair, courteous hearing and felt that the chairman of the committee, State Senator Thomas L. Kilgallen of Pittsburgh, had given them every opportunity to present their case in a comprehensive manner.

Following the custom of the state Senate, no decision was handed down as to what would be done with the bill. It is in the hands of the committee and will probably be discussed by that body later in executive session.

Somehow we find ourselves unable to become greatly upset over the sad fact that scientists are being denied the usual number of snow flakes to study this winter.

Tree Campaign Here Meeting With Success

Orders For Red Bud Trees Will Be Taken By Garden Forum Until March 5

EXPECT COUNTY WILL BE FAMOUS

Efforts of the Garden Forum of Lawrence county to have the county beautified and become famous for its red bud trees is meeting with great success, officers of the Garden Forum stated today.

It was announced that the campaign will continue until March 5, and that residents who wish to take advantage of the extreme low price in the purchase of these beautiful ornamental trees, should do so as quickly as possible now. It is necessary to close the campaign on the date mentioned above so that they can be prepared for shipment by the nursery.

In order to assist those who wish to purchase trees, tables will be placed at the Strouss-Hirshberg Company store, New Castle Dry Goods, and Post Office, on Thursday, Friday and Saturday, February 25, 26, and 27, where orders may be placed for the purchase of these trees.

Ellwood City Aiding

Ellwood City citizens are cooperating with the idea and an extensive campaign is under way under the direction of Mrs. L. E. Springer, president of the Woman's Club and chairman of the city beautification committee, and Ellwood City expects to have an unusually large planting of the red bud trees.

Mrs. Harry Reed, the new president of the North Beaver Garden club and Mrs. Ellis Harry, president of the New Bedford club, are among those with whom orders may be placed in their respective districts.

The idea of the campaign, which is sponsored by the Garden Forum, is to have the county become famous in years to come as a beauty spot, and to be as noted for its attractiveness during the budding and flowering season of these trees as Washington, D. C. is for its cherry blossoms, and other sections for particular kinds of floral beauty.

This is an unusual opportunity for citizens of the county to secure these trees at a very nominal price. The average price quoted in nursery catalogs is around $1 per tree. Because of the fact that the Garden Forum is ordering such a large number, they are able to secure them at a price of ten cents per tree, or in lots of 25 or more, at $6.75 per hundred trees, or six and three quarter cents each.

Picked Up In Other Papers

Beaver Falls city council is worried over its ever-increasing downtown traffic problems and has decided to make an inspection trip to Sharon and Meadville where parking meters are in operation. It was stated to council that bad feeling on the part of shoppers who have been "tagged" for double parking is growing. It is thought that meters may possibly be a solution to the problem.

Penn high school students of Greenville have an eye for business, it seems, and they celebrated Washington's birthday by selling 312 cherry pies. Their purpose was to finance a trip this spring to Washington.

Mrs. Sam Shaulis, Somerset R. D. 3, has a White Leghorn pullet, hatched May 8, that is ambitious to lay eggs as large as a turkey's. One she laid last week weighs four ounces and measures nine inches in circumference around the ends and seven inches around the girth.

A woman shoplifter in a Butler market was almost arrested but not quite. While police were on their way to the store she ripped a sleeve from her coat in freeing herself from the employes who had seized her.

On Court House Hill

Twenty two divorce decrees were handed down Tuesday by Judges James A. Chambers and W. Walter Braham. Almost all of them were cases that had been heard last week and apparently the court lost little tmie in passing upon the peititions once they were heard.

The decrees granted follow. Leila M. Bieber from John Bieber. Pearl Carlson from Charles J. Carlson Frances M. Kline from Walter Kline. Carrie H. Hennebohl from Clarence Hennebohl. Viola Sweet Cowles from John Lewis Cowles. Dorothy M. Grossman from Edward Grossman. Sarah M. Cohen from H. Joseph Cohen. J. Preston Flaherty from Helengrace Flaherty. Fred Couts from Hazel Gladys Couts. Pearl E. Shields from Ray M. Shields Twyla S. Ecklund from Albert E. Ecklund. Orintha V. Bishop, from Harry A. Bishop. Dragica Morozi from David Morozi. Verna Elaine Suszynski from Edward Joseph Suszynski. Jennie Martucci from Carmen Martucci. Mae Frances Sloan from Frank George Sloan. Virginia Eckley from Gordon C. Eckley. Jennie Katherine Williams from John E. Williams. Peter Panella from Caroline Panella. Beatrice Cross from Ernest Cross. Vera Book from George S. Book. John B. Dennis, Jr., from Frances Dennis.

A libel in divorce was filed in the office of Prothonotary and Clerk of Courts, John A. Edgar on Tuesday in which Pluma Irene Newton asks to be divorced from her husband Merle J. Newton. They were married December 24, 1924. She alleges cruel and barbarous treatment. Mrs. Newton resides in New Castle and her husband in Ellwood City.

Two notary public commissions have been recorded in the office of Register and Recorder William R. Hanna. They are for C. J. Kenehan and B. J. Martin.

Exceptions to the schedule of distribution have been filed in the case of the Peoples National Bank of Ellwood City now for use of Marshall Matheny, trustee versus Anna J. Cable and Milton J. Cable of Ellwood City. The Cables object to the distribution of funds of the closed bank to Fred Fusco.

The lawyers are priming for their annual feed which will be held at the New Castle Field Club on Saturday night at 6:30 o'clock. Chairman Roy Mercer has announced that the two speakers of the evening will be Attorneys William J. Caldwell and Edwin K. Logan. Both are busy preparing long speeches about something or other. The addresses are expected to include a wide scope, life and love and hereness of the now.

A number of will have been probated before Register and Recorder William R. Hanna. The will of Joseph Kuhn leaves his estate to his niece Josephine M. Campbell.

The will of Ostia L. Hayes, late of Poland , O., divides her estate to a large number of relatives, a few of which reside in Lawrence county.

The will of Thomas G. Douglass late of New Castle divides his estate between his daughters Margaret Weinberg. Mary McFarland and a son John W. Douglas.

The will of Agnes H. Robinson leaves his estate to Margaret Frances Robison a daughter.

The will of Caroline C. Moyer, late of Ellwood City leaves her estate one half to a son Ernest B. Moyer and the other half to be divided between a number of grandchildren.

The will of Alexander F. Cameron late of Scott Township leaves his estate to his widow Jennie B. Cameron.

The will of Alice J. Wilson late of Ellwood City leaves her household effects to four daughters, Clara L. Nagle, Mary A. Lawrence, Terzah May Tillia and Nellie E. Newton. The balance is divided among relatives.

The will of Graham C. Harper late of Hickory Township leaves his estate ti his widow and children.

Letters testamentary have been issued to Louis D. Gunton as executor in the estate of the late Lynda Gunton, of New Castle.

Letters of administration have been issued to Mary L. Rankin as executrix in the estate of Margaret Ranklin, late of New Castle.

Letters of administration have been issued to Glen C. Harper as executor in the estate of the late Graham C. Harper of Hickory Township.

Letters of aministration have been issued to George W. Garnett as executor in the estate of Christine Lewis, late of New Castle.

Letters testamentary have been issued to John L. Wilson as executor in the the estate of Alice J. Wilson late of New Castle.

Letters testamentary have been issued to Alexander H. Cameron as executor in the estate of Alexander F. Cameron late of New Castle.

Some slight confusion has arisen in the minds of some of the jurors who have been called for service for the week of March 15. They are called for the second week of the criminal court sessions which is the week of March 15. The first week of the sessions start on March 8. The first week of the month, beginning March 1 is the week of the Grand Jury and only grand jurors report that week. From the indications the jurors called for the week of March 15 may have to serve on into the next week. The ones called for the week of March 8 get but one week unless a jury should be on a case that goes over the week-end.

The budget of the county is now on public view in the offices of the county commissioners and the county controller. Thus far not a citizen has called to see where his money is to go next year. Since the law was passed requiring the budget to be on view (several years ago) two citizens have been interested enough to walk up to the court house and look at it.

Your Income Tax In A Nutshell

AUTOMOBILE DEDUCTIONS

With the number of automobile owners registering in the millions, the question of deductions for the cost of operation and maintenance of a motor car frequently arises. The purchase price of an automobile, whether it is to be used for business or pleasure, cannot be deducted from gross income. If used for business, it is a capital expenditure; if used for pleasure, it is a personal expenditure—both deductions being expressly prohibited by the income-tax law.

Several deductions, however, are allowable in connection with the cost of maintenance and operation of an automobile, used either for business or pleasure. If used exclusively for business, deductions may be taken for the cost of gasoline, oil, repairs, garage rent, and other necessary operation and upkeep expenses. Depreciation, based on the cost of the car and its estimated useful life, also is deductible.

Other deductible itms are as follows: Sums paid during the taxable year for registration fees, drivers' licenses, personal property tax, and municipal taxes; interest on money borrowed for the purchase of a motor car, either for business or for pleasure; loss sustained by reason of damage while car is being used for business, provided such loss is not covered by insurance or otherwise; damages paid for injury to another, provided that the car was being used for business at the time, and the damage was not covered by insurance or otherwise; and the amount paid for insurance on motor vehicles used for business purposes.

Farmers around Calitzdorp, South Africa, are engaged in a fierce war with jackals. Large numbers of cattle and sheep have been killed. The jackals have become so bold that during the night they enter farmyards. Farms where sheep are kept have to be specially guarded. The divisional council is paying $1.25 for every jackal skin brought to its offices.

made the French canal company a failure. Only after Maj. Gen. W. C. Gorgas, U. S. Army Medical Corps, had made the whole country of Panama sanitary, mosquito-less and fever-free, were engineers able to do their work.

Their greatest problem wasn't digging, but controlling the Chagras River, a torrential stream that rises as high as 18 or more feet in 12 hours.

Panama Canal is too small to accommodate the latest ships, like the Normandie and Queen Mary.

The Pacific end of the Panama Canal is 27 miles east of the Atlantic terminus.

A bad guess: it was estimated the Panama Canal would cost $200,000,000. Actually it cost $525,812,661.

Suez Canal, which is more than twice as long as Panama, has not locks.

And you're wrong if you believe that Suez, completed in the Seventies, was the first connection between Mediterranean and the Red Sea. There was a canal in 1380 B. C.! Later Arab rulers let drifting sands close it for centuries to keep enemies from using it.

some material variation, to suspend the sentence, and deliver to the defendant some salutary admonition in the following language:

"You have been tried by a jury of your peers and have been found guilty of assault with intent to murder 'Coon,' and your punishment has been fixed by the jury at five years in the penitentiary but have recommended a suspension of the sentence; now, have you nuthin' to say why this suspended sentence should not be passed upon you?"

The accused answered, "Nuthin'."

The court proceeded:

"It is therefore, ordered, adjudged and decreed by the court that you are guilty as charged and as found by the jury, and your punishment fixed at five years' confinement in the penitentiary, which is nuthin' compared to the gravity of the offense; but inasmuch as the jury has recommended a suspension of the sentence, the same will be suspended during your good behavior, and you are released on your own recognizance, which amounts to nuthin', in the sum of $1,000, with this admonition from the court:

"You are charged and found guilty of assault with intent to murder with a razor one 'Coon,' about Nuthin.' You have nuthin' to say while you thus fought about Nuthin'; the jury has done nuthin' to you in giving you a suspended sentence. If you do nuthin' within the five years, nuthin' will be done to you; but if you assault 'Coon' or any one else, even Nuthin', within the five years, or about Nuthin', this sentence is nuthin' compared with what the court will then do to you. It may be that you have concluded to have nuthin' to do with Nuthin', and permit Nuthin' to have nuthin' to do with you, which, under the circumstances, may be nuthin' but right and proper, and from all the testimony it appears that Nuthin' is worth nuthin', and is nuthin' to fight about, and the court hopes that you will do nuthin', and permit Nuthin' to do nuthin', and let nuthin' cause Nuthin' to do nuthin' to bring you before this court again; but if you can do nuthin' but fight, then fight about something, and never again fight about Nuthin'."

PLANT TREES FOR INDIAN FIGHTER

(International News Service)

XENIA, O., Feb. 24.—A lane of oak trees commenorating the Indiana gauntlet run of the famous Indian fighter Simon Kenton in 1778 is being planted by the Boy Scout Troop 62 of the Ohio Soldiers' and Sailors' home, along the course which historians say Kenton unsuccessfully attempted to run at the behest of Tecumseh, chief of the Shawnees, whose village known as old Chillicothe, was three miles north of here.

The scouts have planted four trees this year and plan to continue the practice each year during the Boy Scout anniversary week until the lane is completed. They will be planted forty feet apart to allow for growth in the future.

Second Sound Truck Is Demolished In Detroit Sit-Down Strike

(International News Service)

DETROIT, Feb. 24.—A bombing today marked the strike situation.

The bombs demolished a new sound truck of the United Automobile Workers Union, the second union truck to be destroyed here in the past three weeks.

Police said the violence came after the truck had made a tour of plants where nine sitdown strikes and three lockouts were in progress today.

Three weeks ago, a union sound truck was stolen, soaked with gasoline and set afire. The truck destroyed was only a week old and had been kept secreted until it made its first tour during the night. The driver of the truck, Bob Kenter, was in a union kitchen when the blast occurred.

TILLIA SAYS HIS TRUCK WAS STRUCK

According to Peter J. Tillia, of Wampum, R. F. D. No. 1, who was involved in an automobile accident on the New Castle-Wampum road, yesterday, Charles R. Gallagher, of 409 North Cedar street, operator of the other vehicle, crashed into his truck.

Night Scene Draws Throng

New York Lass Tears Clothes From Self During Inebriated Tantrum

CITY BANQUETERS NOW HURLING FOOD

NEW YORK, Feb. 24.—Now and then a ghastly blotch slows up New York's quickening panorama. At a Broadway and 48th street corner the other evening a crowd clotted around a taxi from which issued shrill and hysterical feminine shrieks. As usual, no cop on the horizon.

O. O. McIntyre

I became one of neck-craners but the crowd blocked the view so I got my news second hand. Inside the cab, it seems, was a young woman who was in what Michael Arlen calls "violent cuppage." She had been suddenly abandoned by her escort of the evening.

There were flashes of unshod feet kicking against the window pane. And a harried fellow in the uniform of a night club attache was trying to hold the sufferer. Somebody suggested a hospital but the taxi just stood, the driver gazing complacently into the distance.

At last the cab began slowly to wheel away and the news came to us rear rankers that the woman had torn every shred of clothing from her body. The modern Godiva surrounded by a leer of faces that could not be matched by combing the whole of Alcatraz.

Hotels have a growing banquet problem in the increasing army of deft Food Throwers. And even small cafes are not escaping the expert fossers. The fusillade usually begins when the toastmaster clears his throat for introduction. For a time the amusement was confined to hurling bits of bread and lumps of loaf sugar and no great damage was done. But now a gentleman is likely to feel the squish of a gravy-soaked piece of meat or a butter pat against his white shirt front. The start is innocent enough, but when everybody joins in the barrage the air is fairly filled with dripping chunks of this and that. Walls drapes and the like are often smeared and spotted. Two large hotels now demand as high as a $1,500 deposit to take care of damages in case the banqueters turn frolicsome.

Peggy Fears has become an omnipresent figure in the big parade. This winter she varied her career as a night club performer in one of the glossier salons. She has been a chorus girl, a featured revue singer, a dramatic star, a producer on her own, a playwright and had a rather fat part in a Hollywood movie. To say nothing of starring in the somewhat tempestuous role of wife of the pee-wee millionaire . C. Blumenthal. The lady from Dallas is a bundle of temperament awash with energy and with all her activities is a constant first-nighter, a ringsider at cafe openings and always down front at the important prize fights. More than any woman of her time, she has turned life into a perpetual gallop. Even her walk is a lope.

It is fitting one of the many hotels he erected, the Biltmore, should have a Bowman Room in memorial to John McE. Bowman. Indeed Bowman was the greatest hotel builder of his generation. His was a strange career that began as a riding master, then a hotel manager's secretary followed by his spectacular upshoot as the dominating progressive in the hotel world. A man of powerful stamina, he worked for 14 hours a day for a number of busy years. But in the end the strain was too much and he cracked up at his desk.

Broadway, drained of its hordes and lights, is a strange contrast, in the fuzzy half mist of early morning. A serpent in the torpor of gluttony. Only the newspaper vendors and a policeman or so are about. The asphalt has been flushed shiny and the cafe tables are piled high with chairs. Now and then some furtive, covinous figure darts out a side street, looks up and down and rushes to the other side—bent on some dope buying or selling. The big movie palaces are particularly ghostly in the gloom. It seems incredible in an hour or so it will become the milling, jostling artery it is.

I had been called across Broadway to see a friend hospitalized by an accident at 5 a. m. The first time I ever greeted a White Way dawn sans a hiccup. And in morning somnolence it seemed as innocent and free of guile as the Main street of an outyounder village. Save the buildings were higher, it might have been Gallopolis just before the McCormack's old Dominick let go his first cock-a-doodle-do of the day.

Bill Farnsworth tells of the woman walking Park avenue with a tiny hairless Mexican pooch. A wise cracker, in passing chirped: "Lady you've about run out of dog."

The most deadly of warplanes will be delivered shortly at Amsterdam, Holland, for the Royal Dutch Air Force. It is said that it will change radically the aviation world's ideas. It is called the Sythe and is the invention of Anthony Fokker. Looking like a sharp ended winged egg, it has two fuselages and carries 1,000 pounds of bombs. Instead of fast fighters with short rangers, sent up at intervals to intercept a raid, squadrons of these machines can patrol at varying heights.

Dispute has arisen regarding the sovereignty over French-Pettah, a piece of land about the size of a football field on the eastern coast of Madras. The occupants claim that they are living on territory "rightly and conventionally" under French sovereignty. The British authorities at Madras announced that, according to available records, the freehold of the estate is French, but not the sovereignty.

The controversy may be referred to the International Court of Justice at The Hague.

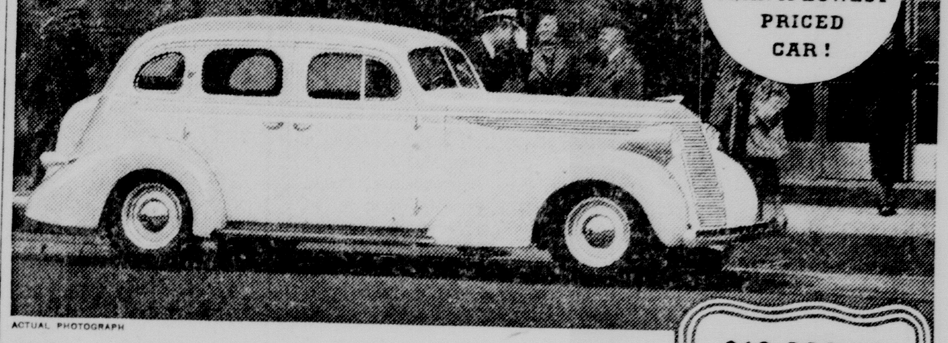
"My friends say I know how to bake. Occasionally I win a prize, when a baking contest comes along. My mother taught me to do it with Pillsbury's Best!"

Studebaker economy is the talk of America!

And Studebaker sales are soaring!

A FEW CENTS A DAY MORE THAN A LOWEST PRICED CAR!



ACTUAL PHOTOGRAPH

THE two always go together when America goes to buy its automobiles... the less a car costs to run the more readily it sells!

In January, Studebaker sales went 'way ahead of January last year . . . in fact, they were the largest in the company's history for fifteen years!

And that sensational sales advance stems straight from the new 1937 Studebaker's remarkable economy which equals and often betters the best showing of the smaller lowest priced cars!

The 1937 Studebaker is the world's first car to offer the dual economy insurance of the Fram oil cleaner and the gas-saving automatic overdrive!

World's only car with the double safety of the built-in automatic hill holder and feather-touch hydraulic brakes! World's only car with non-slam doors that close lightly, tightly and silently on exclusive rattle-proof rotary door latches!

Before you buy any new car, you will be smart to drive a new Studebaker and find out why it's called America's spotlight car of 1937!

$10,000.00 IN CASH to used car buyers!

The best buy of 1937 is a new Studebaker of course. But if you prefer to get a used car, it may be worth as much as $1000.00 in cash to you to buy it here. The Studebaker Corporation is offering 452 cash prizes totalling $10,000.00 to motorists who buy used cars from Studebaker dealers. This offer holds good for a limited time only. The Golden Ply is a layer of special rubber and full-floating cords, scientifically treated to resist this terrific *blowout-causing* heat. And think of it! The Goodrich Safety Silvertown is the *only* tire in the world with this Life-Saver Golden Ply. Play safe. Come in and let one of our experts show you how this amazing device protects you against dangerous high-speed blow-outs. And remember, Silvertowns cost even less than other super-quality tires.

Air Corps Only Army Branch Now Open For District

Recruits For Regular Army Service Will Now Be Placed On Waiting List

As far as recruits from this district for the United States Army are concerned, nothing can now be offered but service in the air corps at the two army fields in this section, Boling Field, Washington, D. C., and Langley Field, Va.

All other service corps are now closed to men from this district, stated Corporal George Trebesh, of the local station, today. Service in the air corps is open only to high school graduates or to persons who can show that they are mechanically inclined.

As the quota for all other branches of the army service has been reached from the district, no more men will be sent to these posts for several months. Trebesh states, however, that he will still enlist men for these now filled posts, and place their name on a waiting list.

No signs have yet been painted on any of the city's motorized equipment. However, the order for the signs has been placed.

Plans and specifications for a patrol wagon are being prepared at the city building. The police patrol will be a "light job."

GREAT FIRES THREATEN DESTRUCTION OF OVIEDO

War-Torn City Is Funeral Pyre

Thousands Slain In Spanish Battle May Be Cremated In Fires

HUGE CASUALTIES REPORTED IN CITY

By THOMAS A. LOAYZA
International News Service
Staff Correspondent

MADRID, Feb. 24—Great fires today threatened to complete the destruction of shell-shattered Oviedo and turn it into a funeral pyre for the thousands slain in Loyalists' attempts to fight their way street by street into the city.

A communique issued at rebel Salamanca estimated that between 10,000 and 12,000 dynamite-hurling Loyalist Asturian miners had been killed or wounded in the Oviedo struggle. Losses at the same time piled high on either side in Rebel offensive at Madrid, Almeria, and Teruel.

Huge Casualties

"Leftist dead abandoned before our posisitions in Oviedo totaled 2250, not counting Loyalist losses on the front south of Oviedo," Salamanca said.

Three big fires have broken out in the Elayo barracks section of town, reports from Loyalist Bilboa said, fanned by breezes from the Bay of Biscay coast. Lack of water and the need for all available fighters to man the street barricades made the task of halting the fires' spread difficult.

Rebel sources insisted the Asturians were making no progress in their drive to storm Oviedo and end the seven months, seige.

Biboa reported, however, that government troops are "closing in rapidly" and fall of the Levega arms factory is expected "at any moment."

Gen. Queipo De Llano, in a broadcast from Seville, placed the center of the fighting at Escaplero, six miles from Oviedo, where the Rebels "decimated" two Loyalist battalions and destroyed three tanks.

Half a dozen cities rocked in air raids today while battles raged on four major fronts.

Railroad Men Want Increase

Wage Increase For 1,100,000 Railroad Workers Would Mean $360,000,000

(International News Service)

CHICAGO, Feb. 24.—The nation's 1,100,000 railroad workers today were solidly behind a demand for wage increases totaling nearly 360 million dollars and averaging 20 cents an hour.

General chairman of the sixteen "nonoperating" railroad brotherhoods made it a solid front late yesterday when they cast votes for the 800,000 membership. The chairman voted to add their demands to those of the "Big Five" operating brotherhoods, who have already requested the railroads for a 20 cents an hour wage increase.

Referring to the estimated 360 million dollars in yearly wages which will be at stake when negotiations begin, chairman George M. Harrison declared:

"These are the largest negotiations ever undertaken by organized railroad workers."

Final Pleas In Somerset Case Now Under Way

Report Made To Court Of Attempt To "Reach" One Of Jurors

DEFENSE CLAIMS CHARGE IS JOKE

By DICK SHANER
International News Service Staff Correspondent

COURTHOUSE, SOMERSET, Pa., Feb. 24.—Opposing attorneys today began their final pleas to the jury in the "third degree" murder trial of State Trooper Stacey Gunderman in the wake of revelation of a reported attempt to "reach" an unnamed juror.

The charge that a juror had been offered a large sum of money to influence his judgment of Gunderman, charged with the death of Frank C. Monaghan, 64, was revealed to Supreme Court Justice George W. Maxey, specially presiding in the case, by Attorney General Charles J. Margiotti.

John J. Duggan, Jr., chief defense counsel, at once denounced the jury fixing charge as a "huge joke, just a little more ballyhoo and some additional hooey."

Margiotti said the charge was made in a typewritten letter, clumsily put together and containing many misspelled words, which he received. The letter farther charged that another man who was called for jury duty but was not chosen had been promised a like amount.

Justice Maxey did not confirm or deny reports that the charge had been turned over to him by Margiotti.

"I have no proof that any one has tampered with the jury," Judge Maxey said. "I will do nothing until such proof is presented me."

The defense concluded its case with a parade of 16 witnesses who denounced Monaghan as a vicious and ill-tempered man when drunk and two others who said they heard him make threats to kill shortly before he was arrested for the slashing of Chief County Detective John C. Wall and taken to the bertillon room of the Fayette county court house for the questioning that ended in his death.

Aircraft Head Issues Warning To Sit-Downers

More Than 300 Workers In Douglas Aircraft Factory On Coast Sit-Downing

(International News Service)

SANTA MONICA, Cal., Feb. 24.—Warning of "serious consequences," Donald W. Douglas, head of the Douglas Aircraft Corp., today demanded that 300 sit-down strikers evacuate the plant.

Douglas' ultimatum, addressed to "the unauthorized occupants of the Douglas plant," was greeted with derision by the workmen who have been in possession since yesterday morning when they struck for union recognition and pay increases.

Approximately 5600 men are employed by the vast enterprise, one of the largest aircraft plants in the world, which has some $24,000,000 of unfilled orders on its books, $19,000,000 of them for the federal government.

Electric Boat Workers Return To Jobs Today

(International News Service)

GROTON, Conn., Feb. 24.—Operations at the Electric Boat company plant here were resumed today when 1,500 employes went back to work.

Meanwhile, 108 sit-downers who were ejected from the plant by state troopers and later released from the state police baracks without bail formed a picket line at the factory.

No man is big enough to defy the law, unless he has several million dollars or several thousand followers who will fight.

(International News Service)

BOSTON, Feb. 24.—A general strike, affecting more than 9,000 members of the United Shoe and Leather Workers' Union, crippled the shoe industry in eastern Massachusetts and New Hampshire today as mass picketing began in a dozen communities.

The workers demanded an immediate 15 per cent wage increase. By a vote of 5 to 1, they rejected a compromise offer of 10 per cent now and 5 per cent in July.

Sit-Down Strike At Timken Axle Plant In Detroit

(International News Service)

DETROIT, Feb. 24.—While violence flared with the bombing of a union sound truck, a new sit-down strike today closed the Timken-Detroit Axle company, throwing an additional 1,800 workers out of jobs.

Between 4,000 and 6,000 workers, hundreds of them women, are now idle because of about 10 sit-down strikes and three lockouts here, according to best available estimates.

The Timken-Detroit plant closed after 350 workers sat down. The company then turned away 1,500 workers of the day shift by posting a notice on its gates "this plant is closed until further notice".

Colored Boy To Be Sent On Way

John L. Lewis Harris, 13, colored, but who appears 18, of Memphis, Tenn., was taken into custody early this morning by Patrolman James Hagen in North Liberty street. The boy was charged with loitering.

According to his story his parents are dead and his relatives are too poor to keep him, so he rode trains from Memphis and was enroute to Pittsburgh where he has relatives when taken into custody.

Chief of Police Ralph Criswell said he would be sent on his way today.

Engineer George Haygreen, of King's Cross, England, who drove the Silver Jubilee Express recently at record speed for Britain of 113 miles per hour, has retired at the age of 63.

NEW HAVEN, Conn.—Dr. James Rowland Angell, retiring president of Yale University, warns against ignorant and ill-informed impulses: "Good intentions are often doubly dangerous when unsupported by knowledge and trained intelligence."

The chief objection to a sense of duty is that it makes you love people who would seem a lot of heels if they weren't related to you.

FINGERPRINTS OF JUNIOR CHAMBER MEMBERS TAKEN

Part Of Volunteer Drive Throughout Nation; Will Seek Plants

Cooperating in the nation-wide citizens fingerprint program of the United States Junior Chamber of Commerce, members of New Castle Junior Chamber of Commerce this week had volunteered their prints to police authorities here for filing in the citizens fingerprint records of the government at Washington, D. C.

One by one the members were fingerprinted by Chief of Detectives H. Ray Showalter, fingerprint chief here, after Showalter had told the group of the help of the records in tracing missing persons.

Part Of National Drive

The national chamber is waging a war on crime and the fingerprint move is a part of its program. Citizens the nation over are being urged to volunteer prints, and the junior chamber here desired to set an example.

Mayor Charles E. McGrath, discussing the general topic "Crime," before Mr. Showalter spoke, stressed the need of "friendly guidance" for those juveniles who have started life out wrong. He reported the recent state-wide crime conference at Harrisburg.

Will Boost Plant Sites

The junior chamber also heard a report on industrial research work done during the past year and listened to an outline of plans to give publicity to the industrial properties available in the New Castle district. The report was submitted by the chamber's secretary, L. J. Lewis.

"An effort is being made," Mr. Lewis said today, to secure the co-operation of the owners of these properties, to make possible the printing of 3,000 new booklets giving facts why New Castle should be considered an ideal city for the location of new industries. Three pages will be devoted to a full description of plants available, including pictures and floor plans of the vacant plants. It is our plan to mail 1,000 direct to prospective industries all over the country and 2,000 will be given to local business houses for inclusion in their regular mail to manufacturing concerns in other cities."

The junior chamber will also seek the aid of the county's industries for the Garden Forum in its campaign to plant 10,000 red bud trees throughout the county. John Brinton, John Riley and Richard Marquis will make the contacts.

President W. Herbert Smith presided throughout the evening.

LIONS TALK BUSINESS

Routine business came before members of the Lions club at their weekly luncheon meeting on Tuesday. Committee chairmen submitted regular reports. Chairman Numa F. Vidal, Jr., presided.

Correct this sentence: "There was no love story in it," said the girl of sixteen, "but it was a perfectly swell movie."

Repeat Performance Planned By Art Club For Union High Play

Success is not only forcast, but guaranteed for the annual musical production of the Palette club of the Union township high school, entitled "Radio Varieties". So large was the demand for seats, that Merrill C. Young, supervisor of the group has announced that two performances of the show will be held in place of only one. The play was originally scheduled for Thursday evening, March 4, and in addition it will now be repeated, Friday evening, March 5. The curtain will rise promptly at 8 o'clock for both evenings.

GREENE COUNTY

Do you know that for 20 years what is now Dunkard township, in Greene county, was the scene of some of the most horrible Indian massacres to take place in America?

When the first settlers came to Greene county in the year 1754 the entire area of approximately 600 square miles was a vast wilderness of virgin forests of pine, hemlock, white and red oak, chestnut and other forest trees. The settlers were confronted by two main problems, the Redmen of the Six Nations tribe and the many obstacles which nature presented.

For many years the settlers lived on friendly terms with the Indians. A little later, however, a group of renegade whites incited the Redmen to the serious trouble which was to continue over a period of 20 years.

Express Highway Plan Proposed

Rep. Drew, Pennsylvania, Proposes Great National Express Highway

(International News Service)

WASHINGTON, Feb. 24.—Proposing a great national express highway system Rep. Drew (D) of Pennsylvania today introduced a bill in the house authorizing appointment of a special congressional committee to study and coordinate plans now being made by states and localities.

"If we can study all these scattered plans and fit them together like a jig-saw puzzle we'll be able to guide the construction of mammoth express highways that will stimulate business all over the country, put thousands of low wage earners to work with normal salaries and give this country a strong backbone for national defense," Drew said.

He praised Gov. Earl of Pennsylvania for doing "a bold and alert thing" in proposing construction of a modern express highway through the mountains of Pennsylvania.

(International News Service)

BELGRADE—Violent death was the end of Milijan Tetjitch, of the village of Jabutchja, Yugoslavia, who was so handsome that the local girls would not look at any other man.

One morning he was found murdered by the roadside. It was alleged that a band of men who could not obtain wives owing to the fact that all the girls were in love with Milijan had killed him.

Sutherland Will Offer Resignation To Pitt Officials

But, Resignation Will Probably Not Be Accepted, Harrison May Go

Report That $20,000 Yearly Job Is Waiting For "Jock" Sutherland Elsewhere

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Feb. 24.—Although I am not at liberty to reveal the details, it can be said with certainty today that, if Jock Sutherland leaves his football coaching job at the University of Pittsburgh, he won't be going out on the bosom of his trousers. Moreover, I think I can say that Sutherland's problem is not one of remaining at Pitt, but of getting away. He has a $20,000 a year job waiting for him—and he makes less than $10,000 now.

So he's returning to the campus tomorrow, after a brief speaking tour in the east, and presenting his resignation, his very move so far in the controversy with athletic director Don Harrison a mosterpiece of timing. The resignation, a seemingly reluctant gesture, will come on the day when thousands of boisterous old grads are back on the campus for the 150th anniversary celebration and the resignation of a football coach who lost only thirteen games in thirteen years is likely to irritate them no end.

Students Protest

Moreover, with student mass meetings and possibly a petition from the football squad, it is difficult to see how Sutherland can go wrong—unless he wants to.

After all, he's the guy who has his name up in the paints out there in front, while Harrison is only the stage manager, the man who stands in the wings and makes the curtains go up and down. I have no way of knowing exactly what is on Sutherland's mind, but I can say that an argument between the coach and the director as to whether the Pitt players should be given a little "sucker money" for a fling the night of the last Rose Bowl game had a very minor bearing on the controversy. It wasn't a reason for the trouble, only an excuse. The pair has been bickering for years.

Brewing Long Time

Moreover, the show down has been in the bag for some time, with more than a bare possibility that Sutherland not only saw it coming but took steps to bring it about. Anyhow, it seems significant that his assistant coaches already have taken themselves off to better jobs at Carnegie Tech and Dartmouth.

With all the pressure that may be brought against it in the next few days, I wouldn't want to say that Sutherland will follow. Only that he can—if he wants to.

Hoffman Says, Max Baer Hopes To Regain Title

Thinks That Baer Can Comeback, Hopes For Another Crack At Louis

By LAWTON CARVER
International News Service Sports Writer

NEW YORK, Feb. 24.—Mr. Ancil Hoffman, the man who has survived nearly nine years of managing Max Baer, and has actually fattened up on the job, today confirmed and elaborated on the former heavyweight's recent warning to the public that he will continue fighting until he regains the title.

"Not only that," Mr. Hoffman said, "but I am convinced that we can regain the title in very short order, regardless of who might hold it when we around to it. If it happens to be Joe Louis, that's so much better because we expect to whip him anyhow."

Better Than Ever.

Strictly unbiased, inasmuch as he only owns Baer, Mr. Hoffman explained that his opinion was based on the probability that his 215-pound meal ticket is a better fighter now than ever before because Baer—as Baer himself has said—is totally reformed since his marriage, and amazingly eager to hit the peak again.

Scheduled to meet Bob Pastor in Madison Square Garden next month Baer will prove, Mr. Hoffman predicts, that he is back to stay—no longer the clown with bad hands who blew the championship to Jim Braddock in 1935, or the poorly conditioned and apparently frightened has-been who was knocked out by Louis a few months later.

"We will wade through any fights necessary to clinch a shot at the title," he said, "then we will keep right on wading to the title. However, our real objective right now is Louis. Max's pride was stung by some of the things said about him after Louis knocked him out, and he wants to square that up.

"He is in great shape, determined to come back all the way, and I don't see how he can miss."

Former High Team Wants Floor Games

Paul Eagan, 458 Croton Avenue, Is Manager Of Newly Formed Quintet

Last season's New Castle high school basketball team, runner-up for the state title, now known as Conn's, desires games with all leading quintets in the city and county.

Games are wanted with the following teams: Gersons, Keystones, House Seniors of city league, Union high, Shenango high and New Wilmington. For games, write or call Manager Paul Eagan, 458 Croton avenue, phone 4595.

The following players comprise the team: Jap Covelli, Johnny Carik, Bus Strausbaugh, Chinkie Dutkin, Pop Adams, Dal Mumford, Blackie Nocera and Emil Grommes. Joe Howley is trainer. The team is regarded as one of the smoothest functioning quintets turned out at high school. Conn's will compete in the Allegheny Mountain association tournament to be held in Pittsburgh during the latter part of March. The team is sponsored by Anthony Conn, well known South Side sportsman.

Keystones Will Go To Braddock

The Keystone A. C. basketball team, champions of the House-Indus league first-half and former Church league champions will go to Braddock, Pa., on Thursday night to meet the strong Holy Name Five under the supervision of Rev. Father Stifter formerly of the New Castle hospital.

Rev. Stifter promises that the Braddocks will make it tough for the Keys under Coach Andy "Coots" Venditto and accompanied to Braddock by the Rev. Father Joseph Doerr, pastor of St. Joseph's church of this city.

Keystone players will meet at the St. Josephs church at 6 o'clock Thursday night to make the trip to Braddock. The game will be played at the Braddock High court.

Wrestling Bouts Here On Thursday

Whether or not 13 is an unlucky number will be determined at the senior high floor on Thursday night when the Greenville high wrestling team will come to New Castle high for a return match.

The admission is 10 cents per person. The locals made a fine showing at Greenville and hope to do even better on Thursday night. The "rasslers" will start to grunt at 7:30 o'clock.

HERE AND THERE IN SPORTS' LAND

Grove City college set the pace all the way to Clarion last night and won from the Clarion Teachers in basketball 38 to 29. Grove City led at the end of the half 18 to 14. The Petach brothers scored 26 points for the Crimson. Hetrick, forward for Clarion garnered nine points.

Indiana State Teachers avenged themselves for a previous setback at the hands of Slippery Rock Tutors at Indiana last night by winning 47 to 34. The home team led practically throughout the game. Groshios, forward for Indiana, caged 15 points as did Axtell, forward for Slippery Rock. Nolan, another forward for Indiana, earned 11 points.

St. Vincent lost to West Virginia Wesleyan 62 to 46 at Buckhannon last night, Evans, forward for St. Vincent, turned in 19 points through nine field baskets and one from the foul line. Eicher, foward for Wesleyan came through with 13 points. Scoring honors of the game went to Ross, center for Wesleyan who siored 27 points.

California State Teachers came through with a 20 margin victory over Forstburg, Md., Tutors at California last night, winning 59 to 39. Watkins and D. Remaley, forwards for California each turned in 12 points. However, Wolford, forward on the losing team played a splendid game, shooting nine field baskets and three throws from the foul line.

Brevity, four year old bay colt which was a prohibitive figure in future books on the Widener Challenge cup race March 6, has been withdrawn from the $50,000 stake by his owner, Joe Widener.

Representative R. J. Cannon of Wisconsin, who tried to unionize baseball players 17 years ago, is considering another attempt. He said at Washington that he might introduce legislation which would have the effect of a unionization. He said player contracts effect interstate commerce and this can be supervised by the federal government. The legislator, a former baseball player and later attorney for Jack Dempsey, "Shoeless Joe" Jackson and other athletes, says owners have too much power.

Penn State and Lehigh will meet at State college in a wrestling meet Saturday.

Union Defeats High Reserves

Union Administers Thumping 52 To 17 To New Castle High Reserves

Union high school basketball team swamped the New Castle High Reserves yesterday afternoon under an avalanche of field goals at the Union high court 52 to 17.

Every member of the Union first team made seven or more points, with Stevenson, the big center making 11 of the points. The Unions went into a tremendous lead 14 to 0 in the first period and were never in danger. The end of the half found the Boydmen leading 26 to 4.

The Unions continued scoring strong in the third period and made 14 more points to four for the New Castle high stars. The score at the end of the third stanza was terrific, 14 to 8. In the final period the Unions eased up a bit and only scored 12 points while the New Castle boys made nine points.

Coach Phil Bridenbaugh used 12 men in an effort to stop the Union townshipers but it was no use. There was no stopping the section 21 team. The Unions were even good at the foul line for a change, making 6 out of 8. New Castle had 1 out of 4.

GAS MASKS ON CREDIT
(International News Service)

ROME—Gas masks on the installment system are the latest step in Italy's rearmament program. To enable the civil population to buy them on easy terms the National Union for Anti-Aircraft Defense has created a mask monopoly. The monopoly is called the Industrial Consortium of Manufactures. It will be controlled by the state.

Paul Dean Says "Dizzy" Will Be Back On Mound

Brother Of Famous Eccentric Hurler Says "Dizzy" Has Baseball In His Blood

(International News Service)

DALLAS, Tex., Feb. 24.—"Oh, I think Dizzy will play baseball this year, regardless of all these statements and salary squabbles," Paul, brother of the St. Louis Cardinal pitching ace, said here today.

"Maybe he won't play for the Cardinals. That'll be too bad. I feel as though we need him more than he needs us, as I know he has plenty of money salted away.

"Maybe he won't play for any other club, either. Maybe he'll just go barnstorming. But I can tell you this: Diz will play some kind of baseball this year. The boy's just got it in his blood."

Titans Will Battle George Washington On Friday Evening

(Special To The News)

NEW WILMINGTON, Feb. 24.—With only six games remaining on the Westminster basketball schedule, Coach Roark's Titan floormen concentrated this week on only one objective—beat George Washington, victors over the Titans in an eastern game, 34-30, who play at New Wilmington Friday night, February 26.

Only two more home games remain for the Roarkmen, George Washington, and Carnegie Tech, March 2. If the Titans can win their two remaining conference games, at Waynesburg, March 5, and at Geneva, March 12, they will have a clear title to conference honors. Particularly anxious are the Titans to defeat both George Washington and Tech on their home floor, where they have an undefeated record for four years, losing their last home game to Geneva in 1933.

Particularly pleasing was the power-house attack that the Titans flashed against a tall, fast-moving Waynesburg aggregation last week when Westminster piled up a 50-point score. The Titans have proved this season that any one of them is a dangerous scorer if not guarded closely. Every Titan has his above the ten mark on points in more than one game during the season.

Out of a seemingly formless style of play at the beginning of the season, the Roarkmen have developed a diversified attack which has been particularly effective against district teams. By having a team, any one of which is a good point-getter, Westminster has been able to make fast and effective shifts in floor positions.

George Washington University will bring to the Titan institution a hard-driving, fast-breaking team of excellent passers and basket-shots, among the best in the east. With a pass attack similar to the Pitt system, the Colonials zipp the ball in and out with precision, waiting for a split-second break for the basket.

The Westminster-George Washington game is called for 8:15 in the Titan gym.

City Baseball League Moguls To Meet Tonight

Managers Of Various Baseball Teams In City To Meet, Seek Six-Team Loop

Plans for a city baseball league for this coming summer, of about six fast New Castle baseball teams will be discussed at a meeting to be held at the Y. M. C. A. tonight at 7:30 o'clock.

Alex Black representing the Tin Mill will be present, as will Joe Ziegler of the Sixth Ward Firemen, Nick Cangey of the Mahoning A. A., Louis "Pick" Glitch, Frank Heasley of the Ryantown team, "Lefty" Maslyk, and others.

The City league does not wish to conflict with the Lawrence County league in any way. It is possible that a fast six team county league can be formed this year. The series at the end of the year would be interesting.

There has been a clamor here for just such a league and the fans will no doubt be interested to know that an effort is being made to provide them with a fast brand of baseball this year. There is a lot of friendly rivalry between the teams in the league and some hot battles are anticipated, in event that a league can be formed, and there is every likelihood of the league starting play in May sometime.

Church League Games Tonight

There will be two games in the Church league at the Y. M. C. A. floor tonight. The first game will start at 8 o'clock.

The Third U. P. will play the First Christians in the first game, and the First Baptists will clash with the St. Pauls in the second game. The third game will find the Tifereth Israels playing an outside team in a non-league engagement.

Slippery Rock Swimmers In Two Contests

(Special To The News)

SLIPPERY ROCK, Pa., Feb. 24.—The Slippery Rock College swimmers travel to opponent pools twice this week. Tonight they meet Grove City and on Saturday they swim against the Indiana Teachers. Both these teams have fallen before the Rocket natators earlier in the season.

Grove City was taken into camp 51-15 last Wednesday night and Indiana was swamped by a 59-16 score on Saturday evening. The Slippery Rock tankmen, recent conquerors of Carnegie Tech, hope to chalk up their eighth and ninth wins of the year.

The meets this week will close the dual competition of the Slippery Rock swimmers for the season, but there still remains the long awaited quadrangular meet at Meadville on March 6.

Tigers Defeat Mahoning Five

New Castle Tigers started their battle for the title of the WPA floor league Tuesday night on the Lincoln-Garfield floor, registering an easy 42-24 victory over the Mahoningtown passers.

The Tigers grabbed an early lead and were never in danger of being overcome. Gabby DeCaprio and Vic Nocera were high scorers for the winners. Tanner tossed in 10 markers for the Seventh Warders. In a preliminary game the Tiger Reserves nosed out the Mahoningtown Reserves 14-13. Saturday the Tigers oppose a tough opponent in the Polish Falcons at Lincoln gym.

FROM ME TO YOU

By MESFEALL

Was just wondering the other day about a few things and no doubt you have wondered about some of the same things . . . How many orchids are sold in New Castle in one year? . . . Do you know the answer? . . . My guess is about 100 of these rare flowers . . . Here are some more questions and problems that sometimes are asked . . . When did the first water works start in town? . . . Who owned the first flour mill? . . . Who had the first automobile? . . . Some of these we are unable to answer, if anyone of you are in a position to do so will you please accommodate.

* * *

Have you ever been on Mercer street? . . . you are saying sure, well then have you ever been on Mercer street above Sheridan Avenue . . . if your car is new stay away . . . if you have friends on this part of Mercer street and you wish to visit them park your car on level ground and have them meet you . . . their cars are shaken to pieces and they won't mind . . . another street that needs repair is Albert street . . . it is a disgrace to have such a condition . . . these two streets are only two of the many scattered all over the town . . . What can you do street department?

* * *

Now the mails . . . To Red in Wampum . . . We are interested more in the unusual of your section . . . by the way, your short hand is very fine but don't write too much . . . we still think long hand better. Let's hear from you again.

* * *

Some time ago we said something about announcing an engagement . . . well it seems that the one in mind hasn't turned out the right way . . . we do have one in mind and it won't be long until you will be reading about the party announcing it . . . A popular couple of New Castle . . . The Phone and the Mill will be united.

Stock Market Is Irregular

Coppers And Aviation Shares Lead Market In Slight Upturn Today

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Feb. 24.—The stock market list moved irregularly lower at today's start, as steels, rails, some motors and blue-chips sustained fairly large losess. At the end of the first 15 minutes, however, coppers and aviations led a recovery movement, which reduced minus signs and brought several plus figures.

In metals Anaconda climbed a point. Phelps-Dodge gained as much, while International Nickel and Cerro De Pasco were close behind.

Steels were inclined to be heavy, following initial losses of a point in U. S. Steel and slightly more in Republic. Declines were pared later, with Bethlehem getting above last night's final price.

Motors were mixed. Chrysler recovering most of a 1¾ point opening loss. General Motors and Studebaker gained somewhat, while Nash-Kelvinator was easier.

Northern Pacific, N. Y. Central and Illinois Central were up, while Pennsylvania, Atchison and Great Northern lost ground.

Utilities, aviations and rubbers were generally improved. Oils and tobaccos were mixed. U. S. Gypsum and Union Carbide lost a point.

Bonds drifted irregularly lower. Grains and cotton turned downward.

Rehearing On Grade Crossing Watchmen Cases

Hearing Is Held Before State Commissioner In Pittsburgh Today

(International News Service)

PITTSBURGH, Feb. 24.—The application of the Pittsburgh and Lake Erie railroad asking approval of discontinuance of a crossing watchman where the railroad crosses Moravia and South Mill street in New Castle was given a rehearing today before Commissioner S. Ray Shelby.

Since January 1, 1937, in accordance with the Public Service commission's ruling, the watchmen at these crossings have been taken off and trainmen of each crossing train let down the gates.

Protests were made by the city against the delay in traffic caused by the commission's ruling and rehearing was granted.

John Haven, traffic superintendent and former police chief of New Castle, testified he has observed a greater congestion in traffic since the new system went into effect. His observations showed that as high as 30 and 40 cars are jammed up daily.

Testimony to the same effect was offered by W. E. Erk, railroad conductor on the Pennsylvania road.

THE TUTTS by Crawford Young

REACH AGREEMENT IN WORKERS PROTEST

(Continued From Page One)

visor in charge. He had been placed there several days ago when, according to Mr. Downie, the supervisor or general foreman in charge, Mr Ferry, was not producing stone in an efficient manner. Mr. Downie stated that the cost of the operation was running about $10 per cubic yard (about two tons) when other quarries were getting stone out for about $3 per cubic yard.

March To Offices.

About 1 o'clock the men marched down to the offices with Thomas Hanlon, a worker on the project, as their head, and with him Samuel Reed, an officer of the Workers Alliance here. Reed and Hanlon addressed the men, advised them to sit down and stay in until their demands were met.

Ralph Brown, one of the department heads of the WPA, told the men that the executive heads were in Sharon but that they would return in a short time.

In the meantime the men sent a telegram to Edward N. Jones, state administrator, demanding the removal of Tyler. Louis Majors of Ellwood City, a labor union organizer; Ray Cutler, president of the Cement Workers Union, and Henry Mett, a member of the United Automobile Workers in Michigan, addressed the men and advised them to stick inside.

Director Downie called the city police station in the situation and Mayor Charles E. McGrath came to the WPA offices. He addressed the men and said that he believed they were intelligent and that they must realize they were impeding the work of getting out the payrolls for the entire district 14. He suggested that they leave the building, which they refused to do. He then suggested that they step outside and let him and their leaders work the matter out with Mr. Downie and Captain Frank Butler. Again the men refused.

Go Into Conference.

Finally a conference was arranged in which the following men took part: J. Vale Downie, F. M. Butler, John Devine, Fred Vaughn, W. Leslie Wilson, Lloyd McCormick, John Ely, Ralph Brown, Paul Raidy for the WPA executive staff. For the project workers the following men attended: Thomas Hanlon, Samuel Reed, Joseph Aiellio, Frank Smith, Thomas Smith, Tex Richards, Robert Keith and Ray Cutler. Mayor Charles E. McGrath also sat in the conference.

The project workers charged that political preference had prompted the placing of Mr. Tyler as supervisor of the quarries, ranking Mr. Ferry. Mr. Downie repeated his statement that the work of the quarry had been inefficient and that this and other reasons had prompted the placing of Tyler there.

After about an hour of conference the compromise was finally effected. Both Mr. Tyler and Mr. Ferry are removed from the quarry supervision until an investigation can be held. Witnesses will be called to testify as to the operation of the quarry, men will be paid for time taken out to testify, an effort is to be made to have the men either make up the time lost on Tuesday or get paid for it anyway, and no worker is to be removed, transferred or fired while the investigation is under way. Mayor Charles E. McGrath and Louis Majors of Ellwood City are to sit in at the hearings as official observers but are not to take any part in the formulation of the decision.

Reach Agreement

Following a conference this morning in the WPA offices between the WPA executive staff, representatives of the West Washington street quarry workers, Mayor Charles E. McGrath and Louis Majors, the following settlement was made of the Tyler-Ferry issue which was raised Tuesday afternoon by the WPA workers.

Walter V. Tyler and Irwin Ferry are both to be removed from the West Washington street quarry. In the case of Ferry the cause assigned is the high cost of production of the stone. In the case of Tyler some of the workers had complained of his being over them. The only hearing held was on the cost of production of stone, there being an agreement to drop all other charges.

There is to be no discrimination against workers on the project for their participation in the strike of Tuesday.

Recognition of the grievance committee of the workers by the WPA staff and foremen on the jobs. This has always been a regulation.

The men who struck on Tuesday will lose the four hours they were off the job and are not permitted to make up the time. This came directly from J. Banks Hudson, acting state administrator of the WPA in Harrisburg, by telephone.

Tuesday afternoon a compromise was effected whereby a hearing was to be held today on charges of inefficiency against Mr. Ferry and charges against Tyler of alleged treatment of the men. When the group assembled in J. Vale Downie's office it was agreed to drop any personal charges, to confine the hearing to records of production cost and to dispose of the entire matter by arbitration.

WOULD ABOLISH POOR BOARD PLAN

(Continued From Page One)

relief activities of poor boards, take over the counties' one-third share of the cost of mothers' assistance and the six per cent administration cost of old age assistance; provide for an increase in unemployment relief grants, and establish local assistance boards to serve without pay.

"It has been suggested that such boards be appointed by the executive, with the advice and consent of the senate," he said, "but the method of selection is entirely in the hands of your honorable body."

This plan, Governor Earle pointed out, would abolish the present system of poorhouses and would result in an estimated $8,500,000 annual saving in county real estate taxes.

For the first time in his political career, the governor came out flatly in favor of some form of civil service, the type of which he left to the legislature. He did, however, make it clear he was opposed to "high, discriminatory educational standards" in selection of employes.

Attorney Would Thwart Attacks By Third Degree

Would Have Clients Photographed In "Nude" Before Being Questioned

(International News Service)

NEW YORK, Feb. 24.—Nudism as a safeguard against third degree methods!

That was the plan of Samuel Leibowitz, attorney, today who ordered photographs in the nude taken of his client, Marty Spellman, 30, before the latter was turned over to Assistant District Attorney Price as a homicide suspect.

Commenting on his action, Leibowitz said:

"There are no marks on him (Spellman) now and I don't want any made by the police."

City Manager At Flint Is Ousted

City Manager Barringer Who Organized Vigilantes Is Dismissed Today

(International News Service)

FLINT, Mich., Feb. 24.—City Manager John M. Barringer, who organized a group of 700 vigilantes here during the recent General Motors sit-down strikes, lost his job today after the city commission voted, 5 to 3, to oust him.

Rumors also were current that police chief James V. Wills may be demoted. Wills had helped Barringer swear in the vigilantes at the height of the tension during the G. M. strike. The vigilantes were kept from marching on 2,000 union sympathizers by orders of Michigan National Guardsmen then on strike duty. A clash was averted by minutes.

'Ripper' Bill Is Reported Today

Public Service Commission "Ripper" Bill Is Reported To House By Committee

(International News Service)

HARRISBURG, Feb. 24.—The Earle administration's public service commission "ripper" bill was reported from committee in the house today.

The appearance of the "ripper" measure set the legislative machinery for speedy action that is expected to see the commission supplanted by a public utility commission, recommended by Gov. George H. Earle, by mid-March.

At the same time, the house utilities committee reported out the Holland bill to tax real estate of public utilities in Pennsylvania. The Robinson-LaRue bill to legalize Sunday fishing also made its appearance from committee. All will be up for first reading next Monday night.

Among the bills served up by senate committees today was the Haluska bill for certification of bituminous coal miners. A similar measure died in the first special session of 1936.

Earle Favors Merit System

"Model" Civil Service Plan Is Presented To Governor Earle By Federation

(International News Service)

HARRISBURG, Feb. 24.—Gov. George H. Earle today was on record favoring a merit system for the selection of governmental employes.

His stand on the controversial issue was made known as the Pennsylvania Federation for the Merit System placed in his hands a "model" civil service program to embrace the commonwealth's 27,000 employes who receive a total of more than $37,900,000 a year.

The governor, for the first time since his inauguration, came out in favor of some merit system plan in his budget message in which he recommended civic service requirements and standards for employes under the proposed consolidated public assistance department.

The chief executive announced he would "thoroughly study" the recommendations of the federation which were handed him prior to a public hearing on the Thompson Civil Service measure now before the senate.

Introduced by Sen. Edward J. Thompson, D., Centre, the measure would set up a civil service commission to administer a merit system on a state-wide basis.

Stricter Regulations For Liquor Control Have Been Proposed

(International News Service)

HARRISBURG, Feb. 24.—Stricter regulatory powers to the liquor control board, additional provisions for operation of clubs—especially the "one-man" type—and sale of beer by grocery stores are proposed in amendments to the state liquor laws before the general assembly today.

The amendments to the existing statutes, offered by Sen. B. J. McGinnis, D., Allegheny, are believed to bear the administration stamp of approval.

Would Cut Hours

The amendments propose to cut the operation hours of clubs from a seven-day 24-hour basis to force them to close between the hours of 2 and 7 a. m. the amendments also define more definitely what constitutes membership in such a club.

Grocery stores, under the proposals, could be licensed to sell bottled or canned beer, not in excess of 72 ounces to any one person, for consumption off the premises. This provision is expected to be attacked by regular liquor dealers.

McGinnis proposes to place the power of license revocation in the hands of the liquor board, a power previously held by the courts. The liquor dealers, may, however, after revocation of his license, appeal to the courts. Licensed establishments would be permitted to sell liquor until 2 a. m. on election days. Other closing hours on that day remain the same.

First Pentecostal Revival Successful

Increasing Numbers Wending Way To Services Conducted Nightly

Intense interest is being shown in the revival services in the First Pentecostal church, not only among local people, but by visitors from Franklin and Boyers, Pa., East Liverpool, O., and other points.

The congregations have been increasing each night. Talented singers have been providing music at each service. Last evening a trio from the Peoples Mission sang "Jesus, Rose of Sharon" and Miss Mabel Roberts gave a solo number, "In the Garden."

Meetings will continue each night except Saturday with Evangelist Marie Wilson as speaker.

PARROT CAUSE OF CONTROVERSY

(International News Service)

ST. CLAIRSVILLE, O., Feb. 24.—A parrot became the center of a legal controversy in Belmont county court during which the court decided that the bird should be turned over to the administrator of its owner's estate.

The decision was reached despite the claim of Mrs. Gladys Harris, relative of the deceased, that she had given the bird a good home for six months. She was ordered by the court to turn the parrot over to Henry I. Owens, the administrator.

The bird was valued at $55 by the court which ordered Mrs. Harris to pay $15 damages for refusing to surrender it to Owens.

The man whose wife makes it hot for him never speaks of her as the sunshine of his existence.

DIET VALUE OF SOY FLOUR DISCUSSED

(By Dr. J. A. Lee Clerc of the Food Research Division, Bureau of Chemistry and Soils, United States Department of Agriculture.)

Comparing soy beans with other legumes and common cereals, Dr. Lee Clerc asserted soy beans are appreciably richer in total minerals, especially in sodium potassium, magnesium Calcium, phosphorus and sulphur.

In these mineral constituents, he added, soy bean flour far surpasses any of our common foods, such as cereals, legumes, vegetables, fruits, meats, nuts, milk and eggs. Soy bean flour is one of the richest sources of lime. It is practically free from starch, containing less than one per cent. Try the wonderful bread. Sold exclusively at
